COMPUTER DESIGN INDEX 1967 & 1968

An up-to-date listing of feature articles that have been published in Computer Design since January 1967.

AEROSPACE, AIRBORNE AND MILITARY

IBM Proposes Triple-Redundant Aerospace Computer, M. Ball and F. Hardie ..... Nov. 67 p. 34
A Case For Military Application Of Commercial General-Purpose Digital Computers, R. P. Berkowitz and H. A. Dellicker ..... Feb. 68 p. 34
System Design Of A General Purpose Aerospace Computer, H. R. Charney, D. W. Lambert and S. F. Stanten ..... July 68 p. 33

ANALOG AND HYBRID

A Sound Computer ..... Feb. 67 p. 46
Hybrid Computing—The Hardware Linkage Problem, D. Block ..... Sept. 68 p. 58

COMPUTER AIDED DESIGN

Computer-Aided Design of Digital Equipment, W. F. Jordan ..... May 67 p. 30
Acclaim—A Computer Aided Design System, M. D. Aakhus, D. M. Seeman and E. J. Ptak ... May 68 p. 64

CONFERENCE SUMMARIES

1967 International Solid-State Circuits Conference Jan. 67 p. 26
The 1967 Spring Joint Computer Conference ... April 67 p. 46
Solid-State Circuits Conference ..... Jan. 68 p. 36
Wescon 68—Technical Program Excerpts ..... Aug. 68 p. 67
1968 FJCC Technical Program Excerpts ..... Nov. 68 p. 88

DATA COMMUNICATIONS

Delay Equalization In Data Communications, A. G. Gatfield ..... March 67 p. 44
Digital Data Transmission, G. P. Hyatt ..... Nov. 67 p. 26
Computer Communication Systems, C. Newport Dec. 67 p. 28
Data Multiplex System For Computer Time-Sharing Centers ..... Sept. 68 p. 74
Binary Synchronous Communications, J. W. Cullen ..... Oct. 68 p. 40
A Method Of Data Transmission Requiring Minimum Turnaround Time, P. E. Payne ..... Nov. 68 p. 82

DIGITAL SYSTEM ORGANIZATION (INCLUDING DESIGN TECHNIQUES AND COMPUTER SPECIFICATIONS)

Small General-Purpose Computers Are Replacing Special-Purpose Computers, C. F. Manahan and D. C. Durand ..... April 67 p. 26
Small Economical Digital Systems Using Multi-Sector Core Memories, E. Podsiadlo ..... April 67 p. 72
How Computer Word Size Affects Performance, J. Thron ..... Aug. 67 p. 14
Improved Memory Word Line Configuration Allows High Storage Density ..... Oct. 67 p. 64
Computer Design . . . Some Pitfalls To Avoid, G. D. Smoliar ..... Nov. 67 p. 54
Unconventional Systems, D. L. Slotnick ..... Dec. 67 p. 47
Associative Parallel Processing, R. H. Fuller .... Dec. 67 p. 43
The Best Approach To A Large Computing Capability, G. P. West ..... Dec. 67 p. 41
Validity Of The Single Processor Approach To Achieving Large Scale Computing Capabilities, G. M. Amdahl ..... Dec. 67 p. 39
Architecture For Large Computer Systems—A Debate, G. L. Hollander ..... Dec. 67 p. 36
The Amtram Input-Output Terminal, L. H. Wood, C. Ely, H. Glanzer, and V. Radice .. March 68 p. 68
A High-Speed General Purpose Input-Output Mechanism With Real-Time Computing Capability, K. Fertig and D. B. Cox ..... April 68 p. 72
A Frequency Modulation System Utilizing A Digital Control Loop, R. B. Sepe ..... May 68 p. 54
The Last Decade Of Computer Development, S. Levy ..... May 68 p. 72
Design Of An Asynchronous Main Storage-Central Processing Unit Interface, D. E. Waldecker .... June 68 p. 60
Transfer Rate Of Information Bits, J. J. Kucera June 68 p. 56
High Speed Computer Mechanization, G. P. Hyatt July 68 p. 26
Setting Characteristics For Fourth Generation Computer Systems, Part I Hardware, Dr. C. J. Walter and A. B. Walter, and M. J. Bohl .. Aug. 68 p. 44
Setting Characteristics For Fourth Generation Computer Systems—Part II Software ..... Sept. 68 p. 39
Setting Characteristics For Fourth Generation Computer Systems, Part III-LSI ..... Oct. 68 p. 48
Sequential Machine Synthesis Using Regular Expressions, M. D. Johnson, and R. B. Lackey ... Sept. 68 p. 44
Economy Of Scale And Specialization In Large Computing Systems, J. R. Cox, Jr. ..... Nov. 68 p. 77

DIGITAL MODULES, CIRCUITS AND CIRCUIT DESIGN

Using DTL Gates As Delay Line Taps, E. B. Daly ..... March 67 p. 60
A New Design Transmission-Line Adder, M. H. Bolt and H. H. Nick ..... Jan. 68 p. 67
A Review of Digital Differential Analyzers, N. Martin ..... Jan. 68 p. 38
An Algorithm For Sequential Circuit Design, M. A. Ettinger, and G. W. Jacob ..... May 68 p. 46
Poles And Zeros In Peripherals, T. Fitzgerald .. Dec. 68 p. 36
Synthesis Of Sequential Machines, M. Ettinger .. Dec. 68 p. 46

DISPLAYS AND INDICATORS (INCLUDING GRAPHIC I/O)

New Display Module ..... Feb. 67 p. 34
A Diagnostic Technique For Input-Output Equipment, C. E. Cohn ..... May 67 p. 44
Cartographic Scanner Turns Maps Into Data For Computer Processing ..... May 67 p. 47
A Computer-Less Television Display System, J. L. Nichols ..... May 67 p. 49
Modular CRT Display Console ..... July 67 p. 34
How To Get Started In Computer Graphics, C. B. Newport ..... April 68 p. 40
A New Display Terminal, R. H. Stotz ..... April 68 p. 80
A High-Resolution TV Monitor ..... Dec. 68 p. 62

ELECTROMECHANICAL COMPONENTS AND HARDWARE (INCLUDING CIRCUIT PACKAGING)

Interconnecting High Speed Integrated Circuits With Multilayer Boards, R. C. Grimmer ..... Feb. 67 p. 36
Device Serves As Hirgeard Electrical Connector For Circuit Board ..... March 67 p. 58
The First Standard Line Of Precious Metal Contact PC Connectors ..... April 67 p. 62
New Printed Circuit Process ..... Oct. 67 p. 66
Special Cable Assembly Solves Wiring Density And Flexibility Problems Of Flying Head Data Systems, G. J. Ehalt, and L. J. Matthews ..... June 68 p. 64

COMPUTER DESIGN INDEX 1967 & 1968

An up-to-date listing of feature articles that have been published in Computer Design since January 1967.

AEROSPACE, AIRBORNE AND MILITARY

IBM Proposes Triple-Redundant Aerospace Computer, M. Ball and F. Hardie ..... Nov. 67 p. 34
A Case For Military Application Of Commercial General-Purpose Digital Computers, R. P. Berkowitz and H. A. Dellicker ..... Feb. 68 p. 34
System Design Of A General Purpose Aerospace Computer, H. R. Charney, D. W. Lambert and S. F. Stanten ..... July 68 p. 33

ANALOG AND HYBRID

A Sound Computer ..... Feb. 67 p. 46
Hybrid Computing—The Hardware Linkage Problem, D. Block ..... Sept. 68 p. 58

COMPUTER AIDED DESIGN

Computer-Aided Design of Digital Equipment, W. F. Jordan ..... May 67 p. 30
Acclaim—A Computer Aided Design System, M. D. Aakhus, D. M. Seeman and E. J. Ptak ... May 68 p. 64

CONFERENCE SUMMARIES

1967 International Solid-State Circuits Conference Jan. 67 p. 26
The 1967 Spring Joint Computer Conference ... April 67 p. 46
Solid-State Circuits Conference ..... Jan. 68 p. 36
Wescon 68—Technical Program Excerpts ..... Aug. 68 p. 67
1968 FJCC Technical Program Excerpts ..... Nov. 68 p. 88

DATA COMMUNICATIONS

Delay Equalization In Data Communications, A. G. Gatfield ..... March 67 p. 44
Digital Data Transmission, G. P. Hyatt ..... Nov. 67 p. 26
Computer Communication Systems, C. Newport Dec. 67 p. 28
Data Multiplex System For Computer Time-Sharing Centers ..... Sept. 68 p. 74
Binary Synchronous Communications, J. W. Cullen ..... Oct. 68 p. 40
A Method Of Data Transmission Requiring Minimum Turnaround Time, P. E. Payne ..... Nov. 68 p. 82

DIGITAL SYSTEM ORGANIZATION (INCLUDING DESIGN TECHNIQUES AND COMPUTER SPECIFICATIONS)

Small General-Purpose Computers Are Replacing Special-Purpose Computers, C. F. Manahan and D. C. Durand ..... April 67 p. 26
Small Economical Digital Systems Using Multi-Sector Core Memories, E. Podsiadlo ..... April 67 p. 72
How Computer Word Size Affects Performance, J. Thron ..... Aug. 67 p. 14
Improved Memory Word Line Configuration Allows High Storage Density ..... Oct. 67 p. 64
Computer Design . . . Some Pitfalls To Avoid, G. D. Smoliar ..... Nov. 67 p. 54
Unconventional Systems, D. L. Slotnick ..... Dec. 67 p. 47
Associative Parallel Processing, R. H. Fuller .... Dec. 67 p. 43
The Best Approach To A Large Computing Capability, G. P. West ..... Dec. 67 p. 41
Validity Of The Single Processor Approach To Achieving Large Scale Computing Capabilities, G. M. Amdahl ..... Dec. 67 p. 39
Architecture For Large Computer Systems—A Debate, G. L. Hollander ..... Dec. 67 p. 36
The Amtram Input-Output Terminal, L. H. Wood, C. Ely, H. Glanzer, and V. Radice .. March 68 p. 68
A High-Speed General Purpose Input-Output Mechanism With Real-Time Computing Capability, K. Fertig and D. B. Cox ..... April 68 p. 72
A Frequency Modulation System Utilizing A Digital Control Loop, R. B. Sepe ..... May 68 p. 54
The Last Decade Of Computer Development, S. Levy ..... May 68 p. 72
Design Of An Asynchronous Main Storage-Central Processing Unit Interface, D. E. Waldecker .... June 68 p. 60
Transfer Rate Of Information Bits, J. J. Kucera June 68 p. 56
High Speed Computer Mechanization, G. P. Hyatt July 68 p. 26
Setting Characteristics For Fourth Generation Computer Systems, Part I Hardware, Dr. C. J. Walter and A. B. Walter, and M. J. Bohl .. Aug. 68 p. 44
Setting Characteristics For Fourth Generation Computer Systems—Part II Software ..... Sept. 68 p. 39
Setting Characteristics For Fourth Generation Computer Systems, Part III-LSI ..... Oct. 68 p. 48
Sequential Machine Synthesis Using Regular Expressions, M. D. Johnson, and R. B. Lackey ... Sept. 68 p. 44
Economy Of Scale And Specialization In Large Computing Systems, J. R. Cox, Jr. ..... Nov. 68 p. 77

DIGITAL MODULES, CIRCUITS AND CIRCUIT DESIGN

Using DTL Gates As Delay Line Taps, E. B. Daly ..... March 67 p. 60
A New Design Transmission-Line Adder, M. H. Bolt and H. H. Nick ..... Jan. 68 p. 67
A Review of Digital Differential Analyzers, N. Martin ..... Jan. 68 p. 38
An Algorithm For Sequential Circuit Design, M. A. Ettinger, and G. W. Jacob ..... May 68 p. 46
Poles And Zeros In Peripherals, T. Fitzgerald .. Dec. 68 p. 36
Synthesis Of Sequential Machines, M. Ettinger .. Dec. 68 p. 46

DISPLAYS AND INDICATORS (INCLUDING GRAPHIC I/O)

New Display Module ..... Feb. 67 p. 34
A Diagnostic Technique For Input-Output Equipment, C. E. Cohn ..... May 67 p. 44
Cartographic Scanner Turns Maps Into Data For Computer Processing ..... May 67 p. 47
A Computer-Less Television Display System, J. L. Nichols ..... May 67 p. 49
Modular CRT Display Console ..... July 67 p. 34
How To Get Started In Computer Graphics, C. B. Newport ..... April 68 p. 40
A New Display Terminal, R. H. Stotz ..... April 68 p. 80
A High-Resolution TV Monitor ..... Dec. 68 p. 62

ELECTROMECHANICAL COMPONENTS AND HARDWARE (INCLUDING CIRCUIT PACKAGING)

Interconnecting High Speed Integrated Circuits With Multilayer Boards, R. C. Grimmer ..... Feb. 67 p. 36
Device Serves As Hirgeard Electrical Connector For Circuit Board ..... March 67 p. 58
The First Standard Line Of Precious Metal Contact PC Connectors ..... April 67 p. 62
New Printed Circuit Process ..... Oct. 67 p. 66
Special Cable Assembly Solves Wiring Density And Flexibility Problems Of Flying Head Data Systems, G. J. Ehalt, and L. J. Matthews ..... June 68 p. 64

INDEX

INTEGRATED CIRCUITS

Integrated Logic Circuits: A Comparative Evaluation, Dr. W. B. Hugle ..... Jan. 67 p. 36
New IC Compatible Pulse Transformer, J. E. Rogers ..... May 67 p. 51
Effect Of Microelectronics On Error Diagnosis, R. D. Eldred ..... Nov. 67 p. 6
Integrated Circuit Fabrication: Where Can Costs Be Sliced?, D. E. Marshall, Jr. ..... May 68 p. 32
Digital Integrated Circuit Design Techniques, H. R. Camenzind ..... Nov. 68 p. 52
A Monolithic Differential Video Amplifier For Memory Applications ..... Nov. 68 p. 114

KEYBOARDS

Electronic Keyboard ..... Nov. 67 p. 32
The SSK All Solid State Keyboard ..... Oct. 68 p. 66

LOGICAL DESIGN

Logic Minimization Beyond The Karnaugh Map, R. I. Levine ..... March 67 p. 40
The Case Against Statistical Logic Design Techniques, D. S. St. Lawrence ..... June 67 p. 18
Designing Combinatorial And Sequential Adaptive Logic Networks, R. J. Barbetta ..... June 67 p. 44
Designing With Binary Decision Trees, M. Walker Aug. 67 p. 52
A One-Step Process For Obtaining Flip-Flop Input Logic Equations, J. Beraru ..... Oct. 67 p. 58
Flow Charts Methods Of Logic Design, A. MacKinnon ..... Feb. 68 p.72
The Exclusive-Or Element, I. Catt ..... Feb. 68 p. 60
A One-Map Method For Obtaining Flip Flop Input Expressions, M. P. Marcus ..... March 68 p. 54

LSI

Large Scale Integration—Problems And Possibilities, D. E. Marshall, Jr. ..... Feb. 67 p. 18
Small-Scale, Large Scale Integration ..... June 67 p. 52
The Impact Of LSI On Computer Memories, T. Bothwell ..... Jan. 68 p. 22
The Applications And Implications Of Large-Scale Integration, D. M. Hudson ..... June 68 p. 38
Implications Of LSI To Logic Designers, J. D. Allen ..... Sept. 68 p. 36

MAGNETIC TAPE

Newly-Developed Magnetic Tape ..... Aug. 67 p. 46

MANAGEMENT, TRAINING AND EDUCATION

The Designer—The System And The "IC-Mix," W. A. Collymore ..... Nov. 67 p. 52
Can We Afford Design Assurance?, R. P. Berkowitz ..... June 68 p. 34

MATHEMATICS

Mathematics Revisited: D. M. Bowers
Part 8—Descriptive Statistics ..... Feb. 67 p. 22
Part 9—Statistical Prediction ..... April 67 p. 20
Part 10—Statistical Sampling ..... May 67 p. 34
Part 11—Tests Of Hypotheses And Randomnes .. June 67 p. 28
A New Method For Number System Conversion, E. J. Atkins, M. DeMong, and S. Hartman .... April 67 p. 68
Negative Radix Arithmetic: M. P. de Regt
Part I—Introduction To Negative Radix Number Systems ..... May 67 p. 52
Part II—Negative Radix Representation ..... June 67 p. 56
Part III—Addition And Subtraction ..... July 67 p. 36
Part IV—Multiplication And Division ..... Aug. 67 p. 36
Part V—Division: Testing The Remainder ..... Sept. 67 p. 44
Part VI—Manual Division—The Magnitude Test . Oct. 67 p. 68
Part VII—Division Concluded ..... Dec. 67 p. 70
Part VIII—Complementary Arithmetic ..... Jan. 68 p. 62
The Ternary Number System For Digital Computers, A. Turecki ..... Feb. 68 p. 66

MEMORIES, CORE

Linear Pulse Transformers In Core Memory Systems, W. G. Rumble ..... Feb. 67 p. 48
FET Multiplexer Sensing Scheme For Core Memories R. Sarda ..... Aug. 67 p. 28
A Fresh Look At Coincident Current Core Memories, D. E. Elder and R. H. Norman ..... Nov. 67 p. 42
A 20-Million-Bit, High Speed, Core Memory, R. Norman ..... Dec. 67 p. 54
Interlaced Core Buffer Applications, B. W. Reese Feb. 68 p. 62
Design Of Modular, Low-Cost Core Memories For SLT Systems, T. Kirkpatrick and D. Johnson April 68 p. 60
Bulk Core In A 360/67 Time Sharing System, H. C. Lauer ..... April 68 p. 94
A Three-Wire Memory Systems Design, R. A. Scott, and R. White ..... July 68 p. 49
Ferrite Core Memories—Present & Future Status, R. W. Reichard ..... July 68 p. 22
How To Specify A Special Purpose Core Memory System, B. Rickard ..... Dec. 68 p. 54
On-Line Memory Integrity Evaluation And Improvement, F. Bujnoski ..... Dec. 68 p. 31

MEMORIES, DISK AND DRUM

A Memory-Expander Drum ..... Aug. 67 p. 34
A Word Interlace Technique For Mating Disc Memories To Computers, R. R. Troxell ..... July 68 p. 54

MEMORIES, MASS

A 10^{13} Bit Mass Memory Reads And Writes With Laser ..... March 67 p. 38
Mass Core Storage, G. Andersen ..... Oct. 67 p. 74
Low Cost Mass Memory System ..... June 68 p. 70
Data Format Considerations In Head-Per-Track Mass Memories, T. M. Dundon ..... Aug. 68 p. 40

MEMORIES, SEMICONDUCTOR

The Development Of A Large Integrated Complementary MOS Memory Array, S. Katz, and C. Hanchett ..... Jan. 68 p. 44
A Proposed Associative Push Down Memory, R. B. Derickson ..... March 68 p. 60
A 256 Bit Read Only Memory For Small Machine And Calculator Application, J. J. Kubinec .... Oct. 68 p. 61

MEMORIES, WIRE AND DELAY LINE

Improved Wire Memory Matrix Uses Very Little Power ..... Jan. 67 p. 55
Serial Buffer Stores Using Delay Lines, J. H. Eveleth ..... Aug. 68 p. 52

OPTICAL TECHNIQUES

Broadband Light Modulators For Future Optical Communications Systems ..... June 67 p. 42
Fiber-Optics: State-Of-The-Art Report ..... July 67 p. 44

PERFORATED TAPE EQUIPMENT

Universal Control Logic For Photoelectric Punched Tape Readers Part I—Functional Description, G. P. Hyatt ..... Oct. 68 p. 56
Universal Control Logic For Photoelectric Punched Tape Readers Part II—Sequential Logic Design, G. P. Hyatt ..... Nov. 68 p. 68

POWER (NOISE, GROUNDING, COOLING)

Noise Problems In Ferrite Core Coincident Current Memories, E. B. Daly ..... Nov. 67 p. 46
Computer Circuit Noise Immunity And System Noise, J. J. Di Giacomo ..... April 68 p. 88

PRINTERS

Multi-Copy Serial Printer Prints 600 Words Per Minute ..... July 68 p. 56
Hard-Copy CRT Printer Produces Page Size Prints In Seconds ..... Aug. 68 p. 76

PROCESS CONTROL

Man-Machine Interface In Process Control Applications, W. W. Bolander ..... July 67 p. 22
I/O Requirements For Process Control Computer, L. Templeton ..... Dec. 67 p. 67

PROGRAMMING

Hardware Features That Aid Programming, Dr. I. Flores ..... Jan. 67 p. 48
Diagnostic Programs: Great Expectations?, J. E. Thorn ..... Jan. 67 p. 16
New Programming Technique Cuts Component Failure By 98.2%, William S. Minkler ..... May 67 p. 48
Computer Software: Problems And Solutions, Dr. R. A. Cowan ..... Sept. 67 p. 16
Systems Implications Of Microprogramming, W. J. Patzer, and G. C. Vandling ..... Dec. 67 p. 62
Simulation Of A Small Logic System With A Fortran Program, D. R. Stang ..... Jan. 68 p. 56
Base Relative Specifications Of Opcodes, R. P. Goldberg ..... Sept. 68 p. 63
Automating Software Distribution, R. Gendreau . Oct. 68 p. 34
Interpretive Simulation, R. Malcom ..... Dec. 68 p. 24

RECORDING TECHNIQUES

Electron Beam Recording ..... June 67 p. 50
Techniques Of Digital Recording, F. Loeschner .. Nov. 68 p. 44

SEMICONDUCTOR AND CIRCUIT COMPONENT AND MATERIALS

Development Of A Low-Cost Tunnel Diode ..... Jan. 67 p. 56
New Technique Developed For Sealing Semiconductor Devices ..... March 67 p. 56

TESTING

New Automatic Memory Tester ..... March 67 p. 54
Digital Integrated Circuit Tester ..... Sept. 67 p. 24
Rapid Validation Of Interconnect Systems, P. Wickersham ..... Oct. 67 p. 46
Automatic Wiring Verifier, H. H. Kakita .... June 68 p. 50
An Economical And Versatile Solution To Automatic Testing Requirements, D. L. Sauder, and R. T. Stevens ..... July 68 p. 42
A Computer Controlled MTOS LSI Tester, K. F. Smith, and K. D. Smith ..... Sept. 68 p. 51
A Digital Logic Module Comparison Test System, J. F. Willenborg, S. C. Vallender, and W. P. Cargile ..... Nov. 68 p. 63

TIME-SHARING (INCLUDING MAN-COMPUTER INTERACTION)

A Small Time-Shared Computer, L. L. Constantine ..... April 67 p. 56
Fundamentals Of Time Shared Computers, C. Bell ..... Feb. 68 p. 44
Time-Sharing System Scoreboard, ... Feb. 68 p. 76
Fundamentals Of Time Shared Computers, C. Bell ..... March 68 p. 28
A Low-Cost Output Terminal For Time-Shared Computers, R. C. Rosenberg, D. W. Kennedy and R. A. Humphrey ..... May 68 p. 38
How To Pick A Time Sharing Service, W. D. Nelson ..... Aug. 68 p. 59
Time-Sharing Via Teletypewriters Offers Real-Time Answers To Engineering Problems .... Sept. 68 p. 66

TRANSDUCERS AND CONVERTERS (INCLUDING MOTORS)

Let's Simplify Ingenious Mechanisms, E. Masterson ..... March 67 p. 26
Digital Transducers: State-Of-The-Art Report, W. E. Chapin ..... Sept. 67 p. 26
Electro-Mechanical Digital Transducers Retain Data Until New Sample Is Taken, A. Phillips . Nov. 67 p. 38
Solid-State Synchro-To-Digital Converter, G. P. Hyatt ..... March 68 p. 48

IBM EQUIPMENT

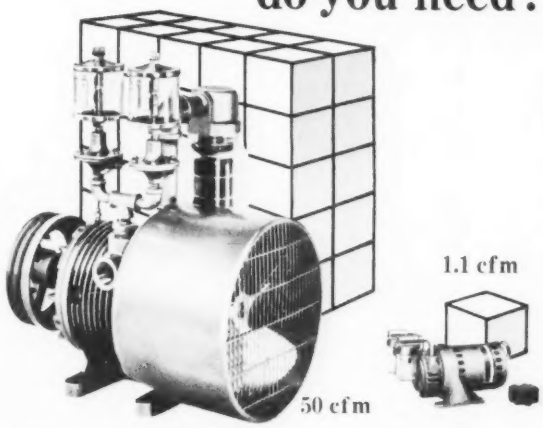
SALE-PURCHASE-LEASE

All models of computers and unit record equipment available under IBM maintenance.

I-C-E, INC.,
1130 NEW HAMPSHIRE AVENUE, N.W.
WASHINGTON, D.C. 20037
Area Code 202 659-3536

CIRCLE NO. 51 ON INQUIRY CARD

What size vacuum pump do you need?



Choose from 35 Gast models with help from Gast's Catalog and Designers Handbook...

Whatever your vacuum requirements . . . in the range from .35 cfm to 50 cfm . . . to 28" Hg . . . there's a Gast model that will fill the bill for you . . . precisely. Take your pick from either lubricated or oil-less types . . . motor mounted or separate drive. Gast Designers Handbook tells you how to make the right selection. Write for your copy.
